

Free Spay/Neuter Services for Cats During April!

LA Animal Services is offering free pet cat Spay/Neuter Certificates to all LA City residents from April 1 - April 30, 2019

Animal Services will be offering free Cat Spay/Neuter Certificates to all LA City residents (three pet cats per household), regardless of income, to encourage our community to get their cats spayed or neutered before they have unwanted litters.

Kitten season is starting early again this year and LA Animal Services is seeing an increase in cat and kitten impounds citywide. By taking advantage of these Free Spay/Neuter Certificates, you can help prevent unwanted kitten births.

To get your Free Certificate immediately, visit the nearest LA City Animal Services Center, or apply online for a print-at-home Free Certificate at <https://www.lacityvet.com/onlinevoucher/>.

"By spaying or neutering your cat or kitten, you are helping LA Animal Services get one step closer to reducing unwanted kitten births and helping LA Animal Services place more animals in homes of their own," said Brenda Barnette, LA Animal Services General Manager. "With our new print-at-home system, it's never been easier to spay or neuter your pet!"

This program is available for residents of the City of Los Angeles who are 18 years of age or older. Each household is eligible for Free Spay/Neuter Certificates for up to three cats. Free spay or neuter surgeries are for companion cats only, and stray animals are excluded. Once a Free Certificate is received, it must be redeemed at a participating veterinary hospital within 10 days of issuance.

To learn more about how to apply for a Free Spay/Neuter Certificate and to find participating veterinary hospitals, spay/neuter clinics and mobile spay/neuter clinics in your area, please visit: <http://www.laanimalservices.com/general-information/spay-neuter/>.
